**UNITED FOR
PERFORMANCE**

TRUST UNITES US

"We believe that it is easier to fulfill your dream when you have around you people you can rely on, correct, with unshakable moral principles.

Dedicated people who understand your needs because they are professionals like you and always help you find the most suitable solution.

People who know how important it is to feel safe, people that give you stability.

We are convinced that stability is built through trust, therefore, at the base of everything we build, we place trust in the relationship with customers, employees, partners and the society in which we live.

Trust unites us all, in a team with a common goal, that of continuously evolving together and achieving maximum performance."

CLAUDIO VACCARI
FOUNDER & CEO

WE ARE OPTIMISTIC ABOUT THE FUTURE

We set out with the desire to be the ideal partner for professionals who operate heavy machinery in agriculture, construction and industry, to create value through dedicated, innovative solutions, designed for specific needs, at the highest standards.

We are more confident than ever that we can turn our dream into reality and we are putting the same shared values that have brought us this far into its service.

INTEGRITY

Through our decisions and actions, we promote fairness and professional ethics.

INNOVATION

We are in a continuous search for ideas and solutions, so that we and our customers are always one step ahead.

TRUST

Through trust, we turn any relationship into a long-term partnership.

RELIABILITY

Through everything we do, we aim to create a stable environment where those who rely on us feel safe.

EVOLUTION

We are animated by the desire to develop permanently, to become better.

UNITY

We and our customers are part of the same team.

REASONS TO BE PROUD

In the almost three decades of activity, we have encountered countless challenges, some have made us stronger, others have turned into the successes we are proud of today.

- IT and digital infrastructure for online orders;
- Quality Management System SR EN ISO 9001:2015, system certified by TÜV AUSTRIA

WORKING WITH PROFESSIONALS

Entrepreneurs and professionals in agriculture, construction and industry face a very competitive market environment, where results often come only through significant efforts, through a continuous battle to optimize their resources and improve their performance.

They are looking for solutions adapted to the specifics of their activity, which ensure reliability and continuity in the operation of the equipment, vehicles and heavy machinery they use in operation.

To succeed, they need a reliable partner, ready at any time to promptly respond to their requests and help them solve the problems they encounter in their work.

Professionals need a partner who gives them the certainty that they are making the best choice, creating the optimal conditions for their business to develop.

UNITED PARTS IS THAT PARTNER!

WE SUPPORT PERFORMANCE

Our products are tailored to the specific needs of entrepreneurs and professionals who use heavy or industrial vehicles in their work. Thus, we provide them with the optimal solutions to help them, day by day, to obtain maximum reliability and efficiency in operation, in order to achieve their objectives.

OUR PRODUCT PORTFOLIO INCLUDES A FULL RANGE OF:

- filters
- lubricants
- spare parts for machinery used in agriculture and construction

At the same time, we strive to be a permanent support for our customers, ensuring efficient services, on which they can rely:

- technical support through specialized people
- travel to the client to identify technical requirements
- online order
- nationwide delivery in 24 hours

A close-up photograph of an engine compartment, featuring a prominent cylindrical filter with a pleated surface. The image is overlaid with a blue tint and a diagonal orange-to-blue gradient on the left side.

FILTERS

A photograph showing a clear plastic oil can being poured into the oil filler neck of an engine. The oil is captured mid-pour, creating a clear stream. The image is overlaid with a blue tint and a diagonal orange-to-blue gradient on the right side.

LUBRICANTS

A photograph of a complex engine compartment with various mechanical parts, hoses, and a large air filter. The image is overlaid with a blue tint and a diagonal orange-to-blue gradient on the left side.

SPARE PARTS

IN AGRICULTURE

Through a complete portfolio of components, spare parts and consumables dedicated to agricultural machinery, we meet all the needs of agricultural professionals.

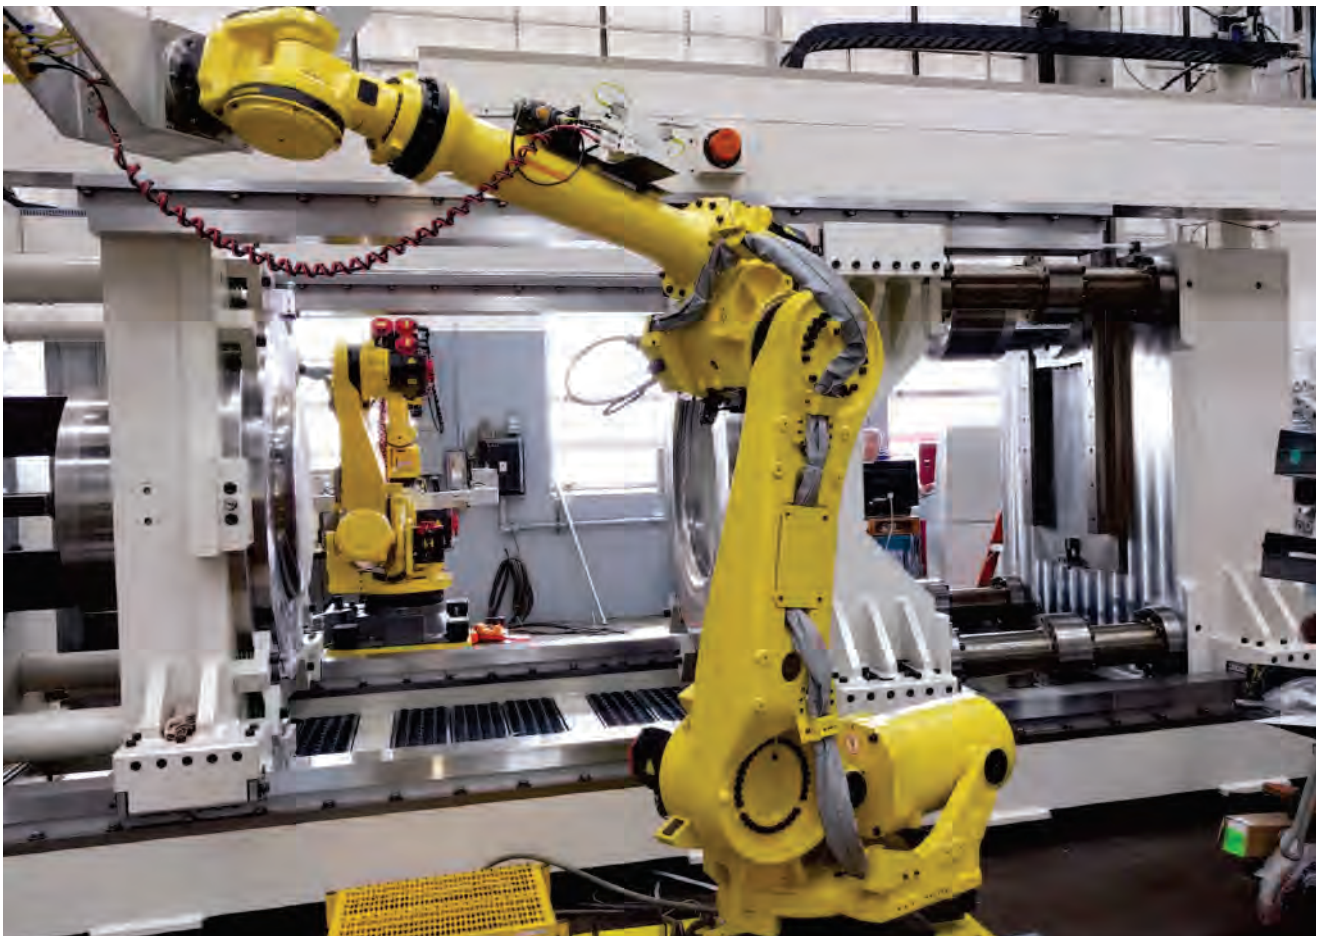

IN CONSTRUCTION

We offer a wide range of spare parts and consumables for heavy vehicles and construction machinery.

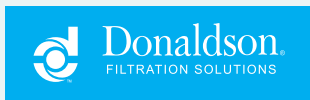

IN INDUSTRY

We meet the requirements regarding the optimal operation of industrial equipment through a variety of products and solutions adapted to them.

OUR PARTNERS ARE THE GUARANTEE OF TRUST

We work with the most important international manufacturers and sell top brands that have won the trust of customers everywhere.
